

## WAIVER AND RELEASE OF LIABILITY

Welcome to Sages Amoré Organics! Before participating in our health and wellness Services, we ask you to take the time to thoroughly read, understand, and agree to this Waiver and Release of Liability (the “**Waiver**”). If you have any questions at all, please contact us before signing this, so we can be sure to be on the same page.

The purpose of this Waiver is to help protect both you and us. For your benefit, we want to be crystal clear that health and wellness coaching comes with risks. Although these risks cannot always be predicted, we want to make you aware of some of the most common and most dangerous ones, so that you can take proper precautions and make a more informed decision about whether our Services are right for you.

This Waiver also protects us from lawsuits, because we cannot operate and help our clients if we have to be fearful of being sued, whether the claims are real, perceived, or frivolous. We do our best to provide the best information possible, but ultimately, your health choices are yours alone. For this reason, by signing or otherwise agreeing to this Waiver, you will be agreeing not to sue us for any reason, regardless of fault. You will also be bound to all other terms of the Waiver.

If you are a minor in the State of Oregon or in your place of residence, your legal guardian must also read and sign this Waiver on your behalf.

**6. Scope of Practice.** The scope of our practice is as follows:

**6.1.** Here is what we will be doing together: I provide various types of Yoga Instruction and workshops, health coaching, and energy balancing. My work will equip you with sufficient information and practical applications for further development of your knowledge, allowing you to decide what, how and when to implement them into your daily life.

**6.2.** Here is what we will not be doing together: I am not a Doctor. I do not provide medical care, prescribe medicines, or diagnose, treat or heal physical or mental medical conditions.

**7. Inherent Risks.** You understand that receiving the services may pose inherent risks, some more serious than others. These risks can result in serious harm and injuries that could change your quality of life, your ability to earn an income and, in very rare and extreme circumstances, could even result in death.

**7.1. Risks from diet change, supplements, and detoxes.** Whenever you put something new into your body, there is a risk. Here we list some relatively common and some uncommon but serious inherent risks.

**7.1.1. Relatively Common Risks.** While many people have no side effects at all when changing their diet, taking new supplements, or detoxing, other people do. Some relatively common risks and side effects include headaches, diarrhea, loose stool, stomach/gut pain or inflammation, vomiting, exhaustion, sleep issues, and over-supplementation or improper supplementation of nutrients.

**7.1.2. Allergies.** You may have a previously unknown allergy to a new food or supplement. Specific symptoms and side effects of allergic reactions can be unpredictable and can range from mild discomfort and nausea to fever and rash to hospitalization and death. It is simply impossible to list every risk of an allergic reaction. Therefore, if you have strong allergic reactions, please be aware of the ingredients of anything we recommend, and consult your doctor or other medical professional as necessary.

**7.1.3. Pre-existing Medical Conditions.** As with allergies, we cannot list every possible medical condition and the associated risks. However, if you have any liver or kidney conditions or diseases, type 1 diabetes, or if you are pregnant or breastfeeding, we do not recommend detoxing and suggest you be very careful about diet changes or starting new supplements. Additionally, if you have had a stroke, heart or circulation issues, gallbladder problems (or removal), blood clots, or have had your stomach stapled, you should be extra cautious and consider talking to your doctor before commencing any change in your diet, supplements, or detoxing.

**7.1.4. Interaction with Pharmaceuticals.** If you are taking pharmaceuticals, you should be aware that they can be counteracted, enhanced, or otherwise affected by the food and supplements you take. Some particular pharmaceuticals of concern include blood thinners, blood pressure medication, and heart medications, but there are many more. If you are uncertain about how any food or supplement will interact with a pharmaceutical you are taking, we suggest that you discuss this with your pharmacist or doctor beforehand.

**7.2. Risks from Physical Exercise.** While physical exercise is an important part of your overall health, it is important to know your own body and not push yourself too far, too fast. Some common risks associated with physical exercise may include soreness, muscle tears and strains, sprained ligaments, bruises and broken bones (from falling), dizziness and fainting, and nerve injury. While very uncommon, it is possible for someone pushing themselves too far to have a heart attack or other serious ailment. Please be careful and listen to your body.

**7.3. Life Coaching.** Life coaching can touch many areas of your life, including mental health, career, family, friendships, and more. In the course of receiving life coaching services, you may begin changing your life in many ways. For example, you may confront difficult issues and realize suppressed thoughts or feelings. There is a risk this could lead to distress, depression, anxiety, and other mental health concerns as you work on yourself. You may also experience changes to your relationships, both positive and negative, as you reevaluate your personal interactions. Additionally, you may make

changes associated with your career, which could lead to a loss in income. Although we provide you with the best information and support we can, there is a risk that your changes result in short or long-term negative effects.

**7.4. Group Coaching.** The risks we discuss above may be enhanced when receiving coaching in a group setting. Every body, mind and soul is different. Solutions that benefit most people may have the opposite effect for you.

**7.5. Yoga Instruction.** While physical exercise is an important part of your overall health, it is important to know your own body and not push yourself too far, too fast. Some common risks associated with physical exercise may include soreness, muscle tears and strains, sprained ligaments, bruises and broken bones (from falling), dizziness and fainting, and nerve injury. While very uncommon, it is possible for someone pushing themselves too far to have a heart attack or other serious ailment. Please be careful and listen to your body.

**7.5.1.** As with any physical activity, there are additional risks for pregnant or post-natal women to the health of your fetus and your body, including but not limited to pregnancy loss, low birth weight, early delivery and postpartum complications.

**7.5.2.** There are risks posed by participating in the Activities online, as there is no in-person supervision or space provided for you. You will therefore need to ensure the safety of the Activities, using your judgment on how to best practice them, not pushing yourself too far or attempting anything you feel unsure how to perform.

**7.5.3.** If the Activities are being performed outdoors, such as tripping or collision with human or natural elements, sun exposure, dehydration, insects, exposure to infections, diseases, pollutants and other environmental factors. You understand and agree it is your responsibility to ensure a safe space and environment to perform the Activities.

**7.5.4.** We would like to emphasize that your release of our liability is not limited in any way to these risks. The risks limited above are only examples. To be completely clear, you are agreeing not to sue us at all.

**8. Affirmation of Health.** By agreeing to receive the Services, you agree that you are healthy enough to receive them. If you are unsure, you affirm that you have sought medical advice and consulted with your primary care physician to determine that these are the right treatments for you and do not pose a significantly increased risk to your health. **If you have any pre-existing medical conditions, physical injuries, weakness or are pregnant or post-natal, you should consult with your doctor first before engaging with the Services.**
